Psalms: The Language of Faith Worship

Group Discussion Questions

What does worship mean to you?

Share about a powerful worship experience in your life. What made it powerful? What made it worship?

The word “worship” comes from the old English word, worth-shape. What is something (other than God) in your life that you value so much that it has shaped you? How much is God shaping your life right now?

If you were going to boast about something, what would it be? Here are some clues:

- What do you display?
- What do you post on social media?
- What do you hope people will notice/think about you?

What do you think it means to boast in the LORD?

On a scale from 1-10, do you relate to God more as a business associate that is useful to you, or as a lover that you simply adore and find beautiful?

Share about a time when you received a gift that elicited a significant response. In what areas of your life are you responding well to God’s gift of grace? What areas are you struggling to respond with appropriate worship?
